## PROFESSIONAL SUMMARY

---

Data Analyst with experience supporting B2B sales operations for more than 800 dealers at Erajaya Swasembada. Experienced in building automated dashboards, KPI monitoring systems, and sales performance analysis using SQL, Python, Excel, and Power BI. Passionate about transforming operational data into actionable business insights that improve decision making.

## WORK EXPERIENCE

---

### PT. Erajaya Swasembada – Jakarta, Indonesia

*Data Analyst and Monitoring*

*Apr 2026 - Now*

- Automated daily and weekly B2B sales reporting for over 800+ dealers, reducing reporting preparation time by 70% while enabling operations teams to monitor KPIs in real time.
- Performed ad hoc sales analyses that identified underperforming dealers and supported operations in improving monthly achievement.
- Optimized reporting workflows through Excel and Power BI, reducing manual reporting efforts by 30%.
- Collaborated with Sales, Operations, and Business Development teams to translate business requirements into analytical solutions.

*Data Analyst and Monitoring Intern*

*Okt 2025 – Apr 2026*

- Supported KPI monitoring across more than 800 B2B dealers.
- Developed dashboards using Microsoft Excel to support operational monitoring and performance tracking.
- Analyzed sales and operational data using Microsoft Excel to generate insights and support decision-making.

### PT. Stargate Pacific Resources – Jakarta, Indonesia

*Data Analyst Intern*

*Jan 2025 - Apr 2025*

- Designed and developed a Power BI dashboard to monitor mining plant performance, improving operational tracking efficiency by 20%.
- Conducted nickel price forecasting using time series analysis to support financial and business planning.
- Performed market analysis of nickel prices from two sources, providing insights for strategic decision-making.
- Built employee data management pipeline, improving HR reporting and workforce analytics.

### PT. Indonesian Tsingshan Stainless Steel – Morowali, Indonesia

*Power Plant Control Room Assistant Operator*

*Jan 2022 - Aug 2024*

- Monitored operational performance using real-time production data to ensure stable electricity distribution and minimize downtime.
- Monitored and recorded electricity and coal consumption data to support operational analysis and reporting activities.
- Led and coordinated distribution system repair activities to minimize downtime and maintain operational reliability.
- Conducted panel room inspections to identify operational risks and ensure compliance with safety standards.

*Power Plant Control Room Operator Intern*

*Feb 2020 - Feb 2021*

- Assisted in monitoring electrical power distribution systems, contributing to operational safety and efficiency.

## EDUCATION

---

**Purwadhika Digital Technology School - Jakarta, Indonesia**

*Job Connector Bootcamp: Data Science & Machine Learning*

*Feb 2025*

**Relevant Courses:** Data Analysis with Python, SQL for Data Analytics, Data Visualization (Power BI, Tableau, Looker Studio), Machine Learning Fundamentals, Predictive Modeling, Statistics for Data Science, Business Intelligence

**Universitas Muslim Indonesia - Makassar, Indonesia**

**GPA: 3.47 | 4.00**

*Bachelor of Electrical Engineering*

*Aug 2022 - Feb 2025*

**Politeknik Industri Logam Morowali - Morowali, Indonesia**

**GPA: 3.33 | 4.00**

*Diploma in Electrical Engineering*

*Aug 2018 - Oct 2021*

## PROJECTS EXPERIENCE

---

**Airbnb Bangkok Analytics**

- Analyzed 1,510 Airbnb listings across 3 key Bangkok districts, delivering insights into pricing, room types, and accommodation distribution.
- Created data visualization and recommendation system for travelers to identify best-value stays.

**Hotel Booking Cancellation Prediction**

- Processed and analyzed 83.57K hotel bookings across 163 countries to predict cancellation likelihood.
- Applied machine learning models to identify drivers of cancellations, supporting strategies to reduce churn.

**Recency, Frequency, Monetary (RFM) Analytics**

- Segmented 792 customers and 8,047 transactions into RFM categories to identify “Champions,” “Loyal Customers,” and “At Risk” groups.
- Delivered targeted retention strategies to improve customer engagement and profitability.

## CERTIFICATIONS

---

- **Kimia Farma Big Data Analytics Project Based Internship Program** - Rakamin Academy [Certificate](#) *Sep 2025*
- **Associate Data Analyst** - DataCamp [Certificate](#) *Jul 2025*
- **SQL (Intermediate)** - HackerRank [Certificate](#) *Jul 2025*
- **Microsoft Excel: Learn Modern Excel for Data Analysis** - Udemy [Certificate](#) *May 2025*
- **The Complete SQL Bootcamp: Go From Zero to Hero** - Udemy [Certificate](#) *Apr 2025*
- **Data Science Bootcamp** - Purwadhika Digital Technology School [Certificate](#) *Feb 2025*

## SKILLS

---

**Languages:** Indonesian (Native), English (Fluent)

**Soft Skills:** Detail-Oriented, Strong Analytical Thinking & Problem Solving, Data-Driven Decision Making, Communication & Cross-Functional Collaboration, Fast Learner & Adaptable to New Technologies.

**Hard Skills:**

- **Programming:** Python, SQL
- **Database:** SAP, MySQL, BigQuery, Microsoft Excel
- **Analytics & Visualization Tools:** Microsoft Excel, Power BI, Tableau, Looker Studio.
- **Data Analysis:** Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Dashboard Development, Business Intelligence Reporting, KPI Monitoring.
- **Machine Learning:** Scikit-learn (Regression, Classification, Predictive Modeling).
- **Tools:** Jupyter Notebook, Visual Studio Code, Git, GitHub.
